ABOUT

GLS UNIVERSITY

The prime philosophy of GLS University is to provide an ideal and creative learning environment and continue the tradition of excellence in education of the sponsoring body of the University, viz. Gujarat Law Society (GLS). GLS was established in the year 1927 and is one of the largest and oldest educational institutions in the state of Gujarat. GLS was promoted by luminaries Sardar Vallabhbhai Patel, Shri Ganesh Mavlankar, the first Speaker of the country, and Shri I. M. Nanavati with the vision of Excellence in Education. GLS University was established in April 2015 under the Gujarat Private University Act, 2009. In a short span today, GLS University is a spearheaded University that provides enhanced learning experiences through its excellent academic quality, well- equipped infrastructure, innovative teaching methods, creative curricular design, experienced faculty, and industry-oriented programmes.

In this VUCA (volatility, uncertainty, complexity, and ambiguity) world GLS University is accelerating its gear in diversified spheres like Commerce, Business administration, Design, Law, Computer Application, Management, Engineering, Performing Arts, Research and Technology. Students of GLS University experience an exceptional quality of education with all the curricular as well as co-curricular activities.

FROM THE DESK OF **EXECUTIVE DIRECTOR**

Dr. Chandni Kapadia
Executive Director
International Director

Dear Students,

Greetings from GLS University!!!

Socrates once said, "I am not an Athenian or Greek but a citizen of the world". While today's era brings education literally to the fingertips with the increasing access to technology, it is equally important for the young minds of today to have easy access to the world-class education where they can hone their passion and skills while making a career in it.

This world of education has become a melting pot of individuals and gaining knowledge with a global perspective ensures that students are exposed to different learning techniques, cultures, religions and languages, ethnic groups in such a way that it creates an enriching society and broadens the academic experience for them. While the UN has also emphasized the importance of fostering global citizenship, it has snowballed a major shift in the roles of students and teachers while bringing a transformation in which world ideas, values and knowledge are viewed as a part of an information-based perspective rather than an industrialist-based perspective.

GLS University School of International Studies does just that - bringing the best of the world to its students; towards creating global citizens in an emerging world community to which we all belong. Employers around the world today are seeking higher graduates with cross-cultural skills that allow them to work in diverse teams and with clients all across the globe. Different programmes with different universities involve professors and experts from corners of the world who bring their own wealth of knowledge, skills and subject-specific expertise which would empower students to be readier than ever to deal with the global work requirements and a competitive edge in the marketplace.

GLS University has aimed to go international to foster a multicultural learning environment which makes it the ideal setting for increasing students' cultural awareness and nurturing their understanding and appreciation of those who come from a different background to their own. It has created opportunities for innumerable students to date by helping them reach those world-class universities and education which most of the students in India can only dream of in such a way that the global concepts of subjects that interest them are integrated with their curriculum. The University has paved a path for them to adapt easily to the new curriculum of these global universities while also aiding them to complete the lengthy paperwork and integrate to the new learning environment.

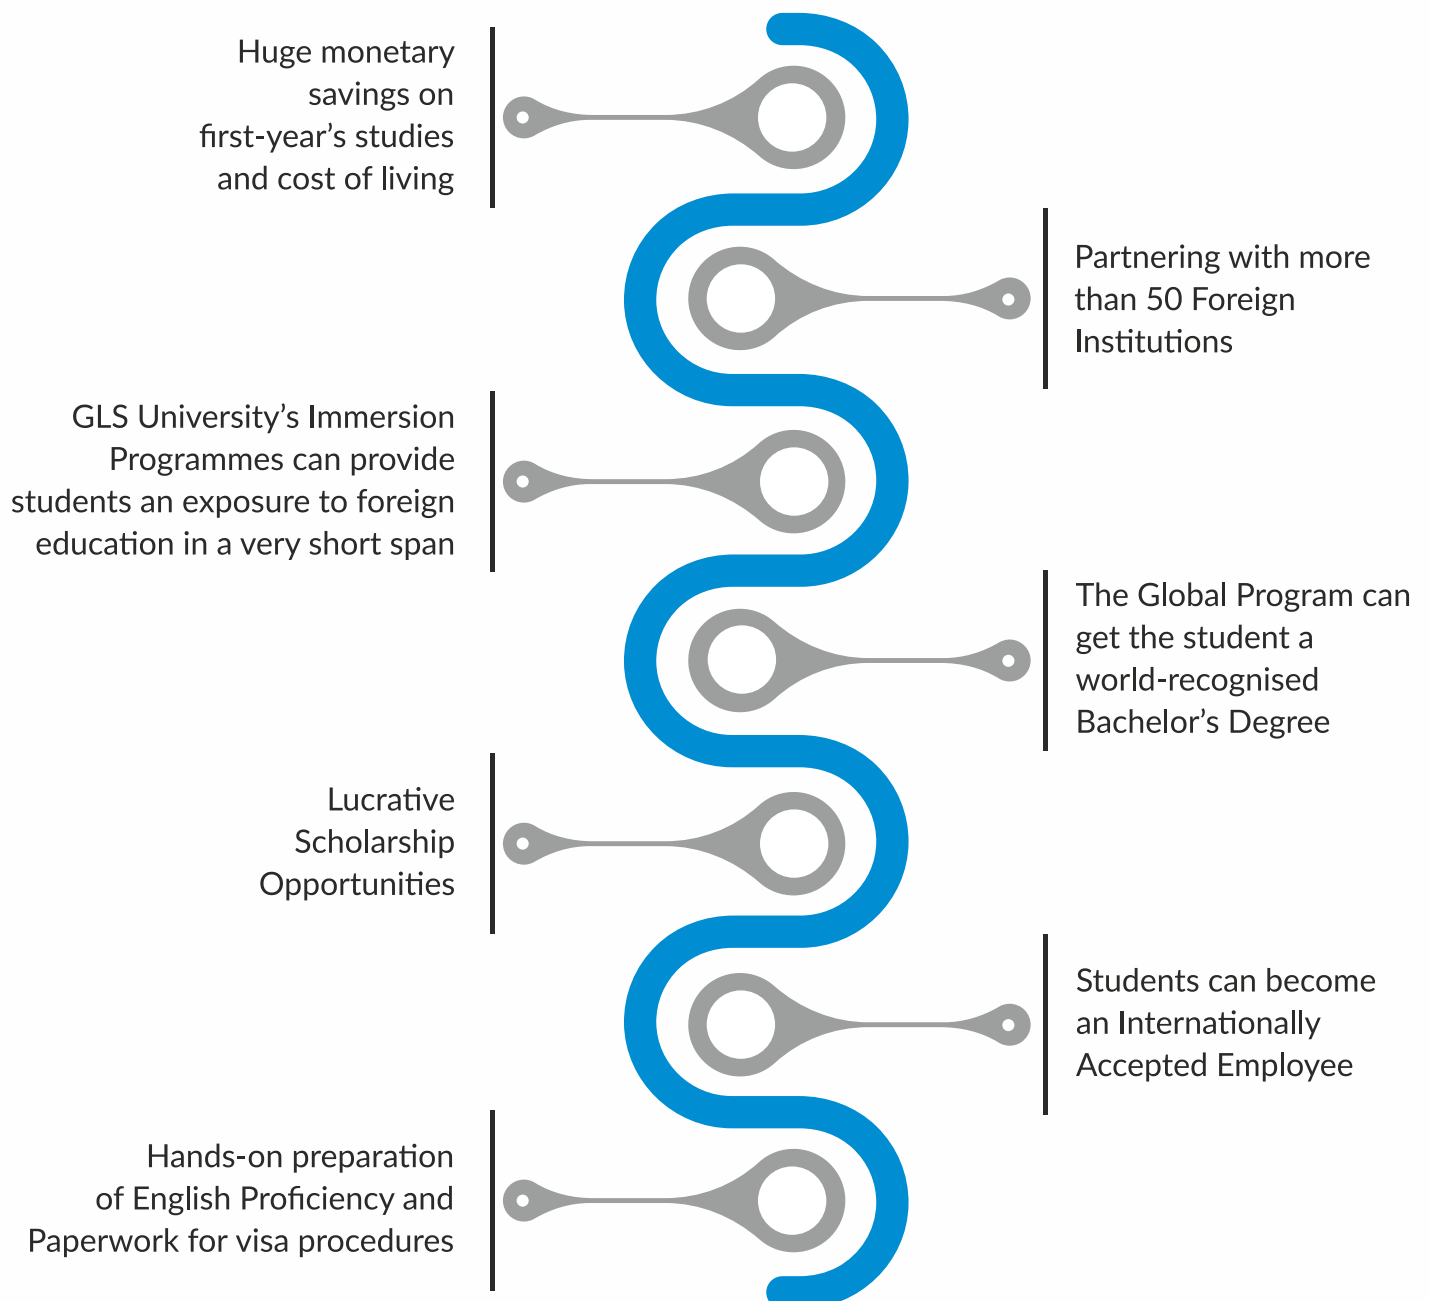

Global Education opportunities at GLS have enabled its students to take purposeful action to improve their own lives and to positively influence the world around them. Because when students are provided opportunities to investigate issues they deem important, unpack why these issues exist, and come up with solutions to make them better, they become empowered to be the catalysts of the changes they wish to see.

Here's wishing all the students of GLS University the very best in their endeavour to study abroad and a successful life ahead.

ABOUT SCHOOL OF **INTERNATIONAL STUDIES**

GLS University's School of International Studies prepares and nurtures the students for the Global Exposure. The department offers various global, pathway, and immersion programmes through our well-established arrangements and relations with other foreign institutions of repute.

KEY HIGHLIGHTS

LEEDS BECKETT UNIVERSITY - ONE OF THE LEADING UNIVERSITIES IN THE **UNITED KINGDOM**

6th
in the UK
for Career
Prospects
(Whatuni Awards,
2022)

6th
in the UK
for Student Life
(Whatuni Student
Choice Awards
2022)

Ranked in Top
10
in the UK for
Facilities (Whatuni
Awards, 2023)

**High quality
teaching and
research**

Dedicated to provide high-quality teaching to suit your needs. Many professional bodies and associations accredit, recognise, and endorse our courses ensuring that your education is up to industry standards.

**Leeds - a
Student City**

Leeds has been rated as one of the best places to live in the UK by The Sunday Times Best Places to Live 2023 guide.

**Manage
cost of living**

As a university, we provide support and undertake initiatives designed to help students with some of the extra costs.

**We don't
just think
green – we
are green**

Since 2005 we have reduced our carbon emissions by 65%. 67% of our waste is recycled and nearly a third is used to make energy. Less than 1% of waste goes to landfill.

GLOBAL PROGRAMME

The Global Programme is crafted to assist students to obtain a education from universities worldwide. This program is available through various foreign universities and colleges, aiming to equip students with the essential skills and knowledge necessary for academic success.

Upon successful completion of the Global Programme, students usually receive assurance of admission to the foreign university's concerned program, contingent upon meeting the academic and language prerequisites. This presents an excellent opportunity for students who may not individually fulfill the university's admission criteria but are otherwise capable and driven to excel in their academic pursuits.

How it Works?

BA (Hons) in International Business / BSc (Hons) Computer Science of GLS University / LBU UK

Awarded Degree	Duration of Course	Place of Study
BA (Hons) in International Business	3 Years 4 Years with Sandwich Year	GLS University, Ahmedabad, India (Year 1) Leeds Beckett University, UK (Year 2 & 3)
BSc (Hons) Computer Science (BCOSC)	3 Years 4 Years with Sandwich Year	GLS University, Ahmedabad, India (Year 1) Leeds Beckett University, UK (Year 2 & 3)

Illustration

ADVANTAGES OF GLOBAL INTERNATIONAL BUSINESS PROGRAMME

- **International Exposure:** A Global Bachelor in International Business program provides students with an opportunity to study and work in different countries, giving them exposure to diverse cultures, languages, and business practices. This helps them develop a global perspective and adaptability, which are highly valued in the current global economy.
- **Cross-disciplinary Curriculum:** Offers a cross-disciplinary curriculum that integrates business, economics, finance, and management with courses in humanities, social sciences, and other areas. This prepares students for a wide range of career opportunities and equips them with the skills to tackle complex, real-world problems.
- **Industry-relevant Skills:** The curriculum is designed to impart industry-relevant skills, such as critical thinking, problem-solving, decision-making, leadership, and communication. These skills are highly sought-after by employers across different sectors and industries.
- **Networking Opportunities:** Provides students with ample networking opportunities with industry professionals, alumni, and peers from different countries. These networks can prove invaluable in finding internships, job opportunities, and business partnerships.
- **High employability:** Graduates of a Global Bachelor in International Business program are highly sought-after by employers due to their international exposure, cross-disciplinary skills, and industry-relevant knowledge. They are equipped to work in a variety of roles, including management, consulting, finance, marketing, and entrepreneurship, among others.
- **Potential for Higher Salaries:** Graduates of Global Bachelor in International Business program have the potential to earn higher salaries due to their advanced education, international exposure, and cross-disciplinary skills. They are highly valued by multinational corporations, which typically offer competitive compensation packages.

Overall, a Global Bachelor in International Business program can be an excellent choice for students who want to develop a global perspective, acquire industry-relevant skills, and increase their employability in the global economy.

ADVANTAGES OF **GLOBAL COMPUTER SCIENCE PROGRAMME**

- **Global perspective:** The Global Bachelor in Computer Science program is designed to provide students with a global perspective of business and technology. This can help students understand how businesses operate in different parts of the world and how technology is used in various industries.
- **In-demand skills:** The program is designed to equip students with in-demand skills in both business and technology, making them highly employable in the current job market.
- **Diverse career opportunities:** Graduates of the program can pursue a variety of career paths, such as business analyst, data analyst, digital marketer, or software developer.
- **Networking opportunities:** Students in the program have the opportunity to build a global network of contacts, including professors, classmates, and industry professionals.
- **Competitive advantage:** The degree can provide a competitive advantage in the job market, as it demonstrates to employers that the graduate has a broad understanding of business and technology, as well as the ability to work in a global environment.

Overall, The Global Bachelor in Computer Science program can provide students with a unique skill set that can help them succeed in the dynamic and ever-evolving fields of business and technology.
